

HIDDEN DANGERS IN WELL WATER: PROTECT YOUR HEALTH BY TESTING

TUESDAY, MARCH 18
12:00 - 1:00 PM ONLINE

Join the Cannon River Watershed Joint Powers Organization as they host the final session of the **virtual learning series *Land to Lake Lectures***. Many private wells in southern Minnesota are vulnerable to contamination from nitrates, arsenic, and other pollutants that can pose health risks. Anne Nelson from the Minnesota Department of Health will share information about these pollutants and how you can keep your well water safe for consumption. This series is offered in collaboration with the University of Minnesota-Extension.
