

# Upcoming Soil Health Field Day: Implementing Strip Till & Cover Crops in a Corn/Soybean Rotation

## Updates, Successes, & Struggles from Scott Lightly

Event will feature host, Scott Lightly talking about the management strategy that is taking place on his farm. Scott's farm equipment will be on site to view along with a soil pit demonstration, and discussion about some on farm research that has been going on.

**When:** Monday, September 12th, 2022

**Where:** 89509 210th Street  
Austin, MN 55912

\*\*Look for signs to go out in the field from here.

**Time:** 2:00 pm—5:00 pm

### Host Biography

Scott first became interested in the nutrient management side of soil health about 5 years ago. He began strip tilling and implementing cover crops for nutrient management across his operation. After attending local soil health events, Scott learned that by feeding the micro-organisms in the soil he could increase the productivity. Scott continues to learn about soil health by ongoing farm research.

RSVP's not required.

For questions about the event contact Lindsey Zeitler at 507-320-3728 or by email at [lindsey.zeitler@mn.nacdnet.net](mailto:lindsey.zeitler@mn.nacdnet.net).

Free supper to follow the event at 5:00!
